

AUDUBON CANYON RANCH

FIRE FORWARD[®]

Building Ecosystem Resilience Together

JOB ANNOUNCEMENT

Logistics Manager, Fire Forward

The Opportunity

[Audubon Canyon Ranch](#) (ACR), an innovative North Bay conservation science and education organization, is hiring a full-time Logistics Manager for [Fire Forward](#). Salary and benefits are competitive.

Purpose

Fire Forward, a program of Audubon Canyon Ranch, brings a unique blend of science-based program design and community organizing as we seek to become fire-adapted communities tending fire-adapted landscapes. We are building ecosystem resilience together by teaming up with private landowners, public agencies, community groups and conservation partners around a shared purpose of developing a culture of land stewardship with a focus on prescribed burning.

We are seeking to add a new member to our strong and dynamic team. Reporting to the Program Director and working collaboratively with the Fire Forward team and other ACR employees, the Logistics Manager provides critical organization, communication, and logistical support, in addition to attending and supporting training, and working in the field on fuel reduction and prescribed fire activities.
